RENAS

Norges ledende EE-returselskap

Det nytter – 94 prosent gjenvinnes

RENAS samlet inn 52 590 tonn elektrisk og elektronisk avfall (EE-avfall) i 2012, en økning på 4,2 prosent sammenlignet med året før. Siden oppstarten i 1999 har RENAS samlet inn over 570 000 tonn EE-avfall. Mengden tilsvarer en kø med trailere som strekker seg fra Lindesnes til Nordkapp.

94 prosent av EE-avfallet som RENAS samlet inn i 2012 har gått til gjenvinning. 88 prosent er brukt i nye produkter, mens 6 prosent gikk til energigjenvinning.

Ca. 60 prosent av alt EE-avfall som RENAS samler inn er jern, og metall kan støpes om og om igjen. Metall fra kasserte EE-produkter kan blant annet brukes til armering i broer, betongkonstruksjoner, bygg og tunneler. Gjenvinningen sparer miljøet for store CO₂-utslipp. For eksempel krever gjenvinning av aluminium bare fem prosent av den energien som ble brukt ved førstegangsframstilling av aluminium.

De tre produktgruppene med størst økning i innsamlet mengde fra 2011 til 2012 er kabler og ledninger, overvåknings- og kontrollinstrumenter og små husholdningsapparater som støvsugere, strykejern, kaffemaskiner og vaffeljern.

Lyskilder er også en produktgruppe der innsamlingen økte i fjor. RENAS samlet inn hele 25 prosent mer lyspærer i 2012 enn i 2011. Til tross for at lyspærer inneholder kvikksølv og andre miljøgifter, er det fortsatt relativt få brukte lyspærer som havner i retursystemet. RENAS tok derfor initiativet til en nasjonal mobilisering for å øke innsamlingen av brukte lyspærer, og dette mener vi har bidratt til de gode resultatene.

60 prosent av bedriftene har valgt RENAS

I mars i år var det totalt 4732 medlemmer i alle de norske returselskapene. Av disse var 2850, eller 60 prosent, medlem i RENAS. Gjennom medlemskapet i RENAS oppfyller bedriftene det lovpålagte produsentansvaret i avfallsforskriften.

I 2012 tegnet over 120 bedrifter medlemskap i RENAS. De fleste av disse bedriftene har valgt RENAS som sitt returselskap etter først å ha blitt kontaktet av EE-registeret som på vegne av myndighetene følger opp at produsenter og importører oppfyller sine forpliktelser.

Et medlemskap i RENAS skal være enkelt, rimelig og forutsigbart. Som eneste returselskap har RENAS samarbeid med tollmyndighetene om innkreving av miljøgebyr. Dette innebærer at miljøgebyr beregnes automatisk når speditøren deklarerer gebyret ved innfortolling av varene.

Medlemmene i RENAS betaler kun miljøgebyr på de varene som produseres eller importeres til Norge. Det er ingen faste årlige kostnader eller tilslutningsgebyr. RENAS er et non profitt-selskap og de tre siste årene har økt medlemstilslutning og effektiv drift kommet medlemmene til gode i form av reduserte miljøgebyrsatser.
