RENAS

Norges ledende EE-returselskap

Mer enn 50 000 tonn i 2011

RENAS samler inn og behandler alle typer kasserte elektroprodukter. I 2011 samlet RENAS inn og behandlet mer enn 50 000 tonn EE-avfall. Dette er en økning på over ni prosent sammenlignet med året før. Miljøregnskapet på de kommende sidene viser hvor store mengder EE-avfall RENAS samlet inn i 2011, hva som skjer med dette avfallet og hvor store mengder miljøgifter som er plukket ut.

Gjenvinningsbransjen er i stadig utvikling og må forberede seg på mottak av nye produkttyper. For eksempel har behandlingsanleggene aldri mottatt så mange kasserte varmepumper som i 2011. Over 800 tonn varmepumper ble tatt hånd om av RENAS i fjor, og det er ny rekord. Metodene for gjenvinning er også i kontinuerlig utvikling. Økte avfallsmengder innebærer at behandlingsanleggene går over til mer mekanisk behandling av de innsamlede produktene, etter at miljøgiftene er fjernet.

RENAS er garantist for at avfallet som leveres inn gjennom returordningen blir behandlet på miljømessig riktig måte slik at miljøgiftene i EE-avfallet ikke kommer på avveie. Skadelige miljøgifter som plukkes ut er blant annet kvikksølv, bly, kadmium, PCB, asbest, ioniske kjerner (fra røkvarslere) og bromerte flammehemmere.

Medlemmer i RENAS per 1. april 2012

Ved utgangen av mars i år var det totalt 4693 medlemmer i alle de norske returselskapene. Av disse var 2830, eller 60 prosent, medlem i RENAS. Felles for alle medlemmene er at de importerer eller produserer elektriske og elektroniske produkter. Gjennom medlemskapet i RENAS oppfyller bedriftene det lovpålagte produsentansvaret i avfallsforskriften. Medlemsbedriftene overlater ansvaret for innsamling av kasserte EE-produkter til RENAS og tar del i et landsdekkende innsamlingssystem.

Et medlemskap i RENAS skal være enkelt, rimelig og forutsigbart. I 2011 tegnet hele 330 bedrifter medlemskap i RENAS. Et så stort antall medlemmer gjør det mulig for RENAS å lage et effektivt system for innsamling og behandling av kasserte produkter. Som non profit-selskap kommer stordriftsfordelen medlemmene til gode gjennom et rimelig miljøgebyr. Medlemmene i RENAS betaler kun miljøgebyr på de varene som produseres eller importeres til Norge. Det er ingen faste kostnader eller tilslutningsavgift ved medlemskap i RENAS.
