RENAS

Norges ledende EE-returselskap

Rekordhøy innsamling av EE-avfall

2014 ble et rekordår for RENAS på flere områder. Vi samlet inn 61 609 tonn elektrisk og elektronisk (EE-) avfall, en økning på 2,2 prosent sammenlignet med 2013 som også var et år med svært gode resultater. Med dette ble RENAS' andel av den totale innsamlede mengden EE-avfall ca. 42 prosent. I Norge har vi et innsamlings- og behandlingssystem som fungerer godt, og både den totale mengden innsamlet EE-avfall og RENAS' andel er økende.

EE-produkter og EE-avfall deles inn i 14 produktgrupper. RENAS samler inn alle typer EE-avfall, og den største gruppen er kabler og ledninger med en innsamlet mengde på nesten 17 000 tonn i 2014. Deretter kommer gruppen for elektroteknisk utstyr som transformatorer, elektromotorer og lignende og gruppen for fastmontert utstyr for oppvarming, aircondition og ventilasjon. Ingen av disse tre produktgruppene er del av EUs WEEE-direktiv (Waste Electrical and Electronic Equipment), men omfattes av det norske regelverket. At vårt regelverk er mer omfattende enn reglene i andre land, er også årsaken til at Norge er i verdenstoppen når det gjelder innsamlet mengde EE-avfall per innbygger, 28,6 kilo i 2014.

I 2014 var det 15 år siden Norge fikk sitt regelverk knyttet til innsamling og behandling av EE-avfall, og RENAS feiret samtidig 15 års jubileum. Siden oppstarten i 1999 har vi på vegne av våre medlemsbedrifter samlet inn hele 700 000 tonn EE-avfall og tatt hånd om over én million kilo miljøgifter.

3000 medlemmer i RENAS

Høsten 2014 nådde RENAS en viktig milepæl da vi rundet 3000 medlemmer. 60 prosent av alle bedrifter som er pliktige til å ha medlemskap har valgt RENAS, og i 2014 fikk vi over 200 nye medlemsbedrifter. Gjennom medlemskapet i RENAS oppfyller bedriftene det lovpålagte produsentansvaret i avfallsforskriften.

Den viktigste kilden til nye medlemmer er EE-registeret som følger opp at alle bedrifter som er pliktige til det faktisk er medlem i et godkjent returselskap. EE-registeret får tall fra Toll- og avgiftsdirektoratet, basert på de om lag 830 ulike varenumrene som er gebyrpliktige, og kontrollerer dataene mot returselskapenes medlemslister.

I RENAS vil medlemsbedriftene oppleve at produsentansvaret blir ivaretatt på en rimelig, enkel og trygg måte. RENAS er et non-profit-selskap, og det er ingen innmeldingsavgift, ingen faste kostnader – bedriften betaler kun miljøgebyr. Beregning av miljøgebyr skjer automatisk, basert på innfortollingsdata fra Tollvesenet, og RENAS tilbyr et landsdekkende innsamlingssystem med strenge krav til kvalitet og sikkerhet.
